Companies from across the state entered the two-part process to determine the Best Places to Work in Vermont. The first part consisted of evaluating each nominated company's workplace policies, practices, and demographics. This part of the process was worth approximately 25% of the total evaluation. The second part consisted of an employee survey to measure the employee experience. This part of the process was worth approximately 75% of the total evaluation. The combined scores determined the top companies and the final ranking. Best Companies Group managed the overall registration and survey process in Vermont and also analyzed the data and used their expertise to determine the final rankings.

Who will be number one?

The final rankings for each category will be announced at a special event at the McCarthy Art Center on the Campus of Saint Michael's College on March 28, 2011.
